GREEN BUSINESS SCHOOL HOLDS TRAINING SESSION ON PUBLIC AND PROFESSIONAL COMMUNICATION SKILLS

Reinforcing its commitment to academic excellence, leadership development, and professional capacity building, Green Business School at Green International University organized an exclusive training session on Public & Professional Communication Skills, featuring internationally renowned communication expert Dr. Mike Litman.

Designed to strengthen essential professional competencies, the session brought together faculty members and postgraduate students for an engaging learning experience focused on effective communication, public speaking, executive presence, persuasive leadership, and personal influence. Through practical insights and internationally recognized communication strategies, participants were equipped with the confidence and skills required to excel in academic, professional, and leadership environments.

The session was graced by Rector Prof. Dr. Mubbsher Munawar Khan, whose continued emphasis on transformational learning, faculty development, and future-ready education reflects Green International University's vision of preparing graduates who possess not only academic excellence but also the communication and leadership capabilities demanded by an increasingly competitive global landscape.

Organized under the leadership of Dr. Hina Jaffery, Dean, Green Business School, the initiative exemplifies the School's commitment to integrating international expertise with academic learning, creating meaningful opportunities that bridge classroom education with professional practice. Such engagements strengthen students' ability to communicate with clarity, confidence, and purpose while fostering a culture of continuous learning and professional growth.

By bringing distinguished international experts to its campus, Green International University continues to expand global academic engagement and promote experiential learning that enhances graduate employability, leadership potential, and lifelong professional development. This initiative reflects GIU's broader mission of cultivating ethical leaders, effective communicators, and globally competent professionals equipped to contribute meaningfully to society and the evolving world of work.

GIU HOSTS LAHORE REGIONAL ROUND OF SEE PAKISTAN – WORLD STARTUP CHAMPIONSHIP 2026

Demonstrating its commitment to innovation, entrepreneurship, and industry engagement, Green International University proudly hosted the Lahore Regional Round of SEE Pakistan – World Startup Championship 2026, one of Pakistan's largest entrepreneurial initiatives designed to transform innovative ideas into scalable business ventures.

As the Regional Round Partner and Co-Host, GIU welcomed aspiring entrepreneurs, innovators, researchers, and industry experts to a dynamic platform that promoted creativity, collaboration, and startup development. The event enabled participants to present innovative solutions, receive expert feedback, and engage with experienced mentors, strengthening the connection between academia and the entrepreneurial ecosystem.

EVENT AT A GLANCE

150+
Startup Projects Showcased

4,200+
Startups Participating Nationwide

300+
Universities & Higher Education Institutions

150+
Cities Represented Across Pakistan

Organized under the umbrella of the Association of Private Sector Universities of Pakistan (APSUP), the championship reflects a national commitment to nurturing entrepreneurship and innovation among young talent. Through mentorship, evaluation, and industry interaction, participants gained valuable exposure to business development, commercialization strategies, and entrepreneurial leadership.

Hosting this prestigious championship reinforces Green International University's strategic vision of cultivating an innovation-driven academic ecosystem where research, creativity, and enterprise converge. By creating opportunities for young innovators to transform ideas into impactful solutions, GIU continues to strengthen its role as a catalyst for entrepreneurial excellence, industry collaboration, and sustainable economic development.

GIU RECOGNIZED IN TIMES HIGHER EDUCATION IMPACT RANKINGS 2026

Strengthening its position among the world's forward-looking institutions, Green International University has achieved distinguished recognition in the Times Higher Education (THE) Impact Rankings 2026—one of the world's most respected frameworks for assessing universities against the United Nations Sustainable Development Goals (SDGs). The achievement reflects GIU's unwavering commitment to creating measurable impact through quality education, research excellence, social responsibility, and sustainable institutional practices.

This international recognition is a testament to the University's strategic vision of integrating sustainability across teaching, research, community engagement, governance, and institutional development. By embedding the principles of the Sustainable Development Goals into its academic and operational framework, GIU continues to prepare graduates who are equipped to address complex global challenges with knowledge, integrity, and purpose.

The University's continued rise on the global stage is guided by the visionary leadership of Honourable Deputy Chairman, Board of Governors, Dr. Muhammad Hamza Amin, and Rector, Prof. Dr. Mubbsher Munawar Khan, whose commitment to academic innovation, institutional excellence, and international engagement continues to shape GIU as a future-focused university.

This achievement has been further reinforced through the strategic leadership of Muhammad Afzal, Executive Director Academics & Institutional Performance, whose dedication to quality assurance, institutional effectiveness, and continuous improvement has played a significant role in strengthening the University's global reputation and performance.

Green International University also acknowledges the invaluable contributions of its Deans, Directors, Heads of Departments, faculty members, researchers, administrative staff, and students, whose collective commitment to academic excellence, impactful research, community partnerships, and sustainable development continues to advance the University's mission and international standing.

SUSTAINABLE DEVELOPMENT GOALS HIGHLIGHTED

SDG 1 NO POVERTY
Advancing equitable access to education and creating opportunities that transform lives.

SDG 2 ZERO HUNGER
Promoting sustainable food systems, awareness, and community-focused initiatives.

SDG 3 – GOOD HEALTH & WELL-BEING
Strengthening healthcare education, research, and initiatives that enhance community well-being.

SDG 17 – PARTNERSHIPS FOR THE GOALS
Building strategic national and international collaborations that accelerate sustainable development.

As Green International University continues its journey of institutional excellence, this prestigious global recognition stands as a testament to its unwavering commitment to academic distinction, innovation, and transformative education. It reflects the University's continuous efforts to cultivate a dynamic learning environment that empowers students, faculty, and researchers to address real-world challenges through knowledge, creativity, and critical thinking. This achievement further strengthens GIU's vision of becoming a globally recognized institution that inspires excellence and drives positive change.

The recognition also reaffirms Green International University's dedication to advancing knowledge through high-quality education, pioneering research, and impactful innovation. By fostering strategic national and international partnerships, promoting interdisciplinary collaboration, and embracing sustainable development, GIU continues to create meaningful opportunities for academic growth and societal progress. Through its commitment to excellence, inclusivity, and community engagement, the University remains focused on producing future-ready graduates, generating impactful research, and delivering lasting contributions that benefit local communities, strengthen the nation, and contribute to a more sustainable, prosperous, and interconnected world.

RECTOR CHAIRS 6TH MEETING OF THE BOARD OF ADVANCED STUDIES AND RESEARCH

Reaffirming its commitment to research excellence, academic integrity, and institutional advancement, Green International University convened the 6th Meeting of the Board of Advanced Studies & Research (BASR) under the chairmanship of Rector, Prof. Dr. Mubbsher Munawar Khan.

The meeting brought together distinguished academic leaders, researchers, and subject experts to deliberate on key research and postgraduate academic matters that contribute to the University's long-term strategic objectives. Through constructive dialogue and informed decision-making, the Board reviewed important proposals aimed at strengthening research quality, academic standards, and scholarly innovation across diverse disciplines.

As the University's highest academic forum for research governance, BASR plays a pivotal role in ensuring that postgraduate education and research activities align with national priorities, international quality standards, and emerging academic trends. The deliberations reflected Green International University's continued focus on fostering an environment where intellectual inquiry, interdisciplinary collaboration, and evidence-based research can thrive.

The successful conduct of the meeting further reinforces Green International University's vision of cultivating a dynamic research ecosystem that encourages innovation, supports academic excellence, and contributes meaningful knowledge for the advancement of society.

Meeting Highlights

- Chair: Prof. Dr. Mubbsher Munawar Khan, Rector
- Forum: 6th Board of Advanced Studies & Research (BASR)
- Participants: Academic Leaders, Researchers & Subject Experts
- Primary Focus: Research Governance, Postgraduate Academic Affairs & Institutional Research Development

Department of Pharmacy Holds PharmD Final Project Display 2026

Highlighting the University's commitment to research-driven education and innovation in healthcare, the Department of Pharmacy at Green International University organized the PharmD Final Project Display 2026, providing final-year students with an opportunity to present the outcomes of their academic research and innovative pharmaceutical projects.

The exhibition served as a platform for students to demonstrate their scientific knowledge, analytical capabilities, and research competencies through projects addressing contemporary challenges in pharmaceutical sciences and healthcare. The display reflected the Department's emphasis on integrating theoretical learning with practical research, fostering critical thinking and evidence-based problem-solving among future pharmacists.

The exhibition was honored by the visit of Dr. Muhammad Hamza Amin, Deputy Chairman, Board of Governors, who appreciated the students' creativity, research excellence, and dedication to advancing pharmaceutical knowledge. Rector Prof. Dr. Mubbsher Munawar Khan also interacted with the participants, encouraging them to pursue excellence in research, innovation, and professional practice while contributing to the continuous advancement of healthcare.

Mr. Muhammad Afzal, Executive Director Academics & Institutional Performance, commended both the students and faculty of the Department of Pharmacy for cultivating a dynamic academic environment that promotes innovation, scholarly inquiry, and experiential learning.

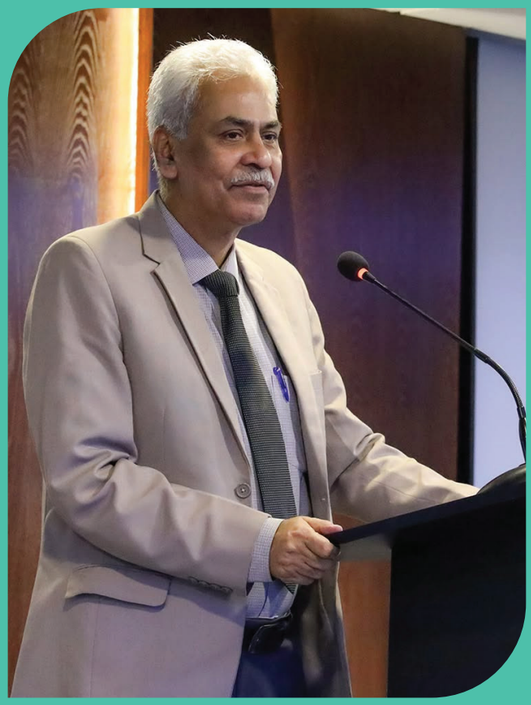

The PharmD Final Project Display 2026 stands as a reflection of Green International University's vision to develop competent healthcare professionals equipped with the knowledge, research aptitude, and professional skills required to address the evolving needs of the pharmaceutical and healthcare sectors. Through initiatives such as these, GIU continues to strengthen its culture of academic excellence while preparing graduates to make meaningful contributions to healthcare, scientific research, and community well-being.

CPDCE HOLDS FACULTY SESSION ON FAIRNESS IN EXAMS, GRADING AND INVIGILATION

As part of its ongoing commitment to academic quality assurance and institutional excellence, the Centre for Professional Development and Continuing Education (CPDCE) at Green International University organized a comprehensive faculty development session titled "Ensuring Fairness in Exams: Grading and Invigilation Policies & Effective Practices."

The initiative was designed to strengthen assessment standards by promoting fairness, transparency, consistency, and integrity throughout the examination process. Bringing together faculty members from across the University, the session provided a collaborative platform to reinforce best practices in grading, invigilation, and quality assurance while encouraging meaningful dialogue on effective assessment management.

The session commenced with an inspiring address by Rector, Prof. Dr. Mubbsher Munawar Khan, who emphasized that transparent and credible assessment practices form the cornerstone of academic excellence. He highlighted the University's commitment to fostering an educational environment where fairness, accountability, and ethical standards remain integral to every stage of the teaching and learning process.

The technical session was conducted by Mr. Zahid Mahmood, Additional Controller of Examinations, who shared practical insights into grading methodologies, invigilation protocols, examination governance, and contemporary assessment practices aligned with institutional and quality assurance standards. Faculty members actively participated in interactive discussions, exchanging perspectives on strengthening evaluation processes and enhancing the overall student assessment experience.

By investing in continuous professional development and academic capacity building, Green International University continues to reinforce a culture of quality, accountability, and educational integrity. Such initiatives play a vital role in ensuring that assessment practices remain transparent, equitable, and aligned with national and international standards, ultimately contributing to the University's mission of delivering excellence in higher education.

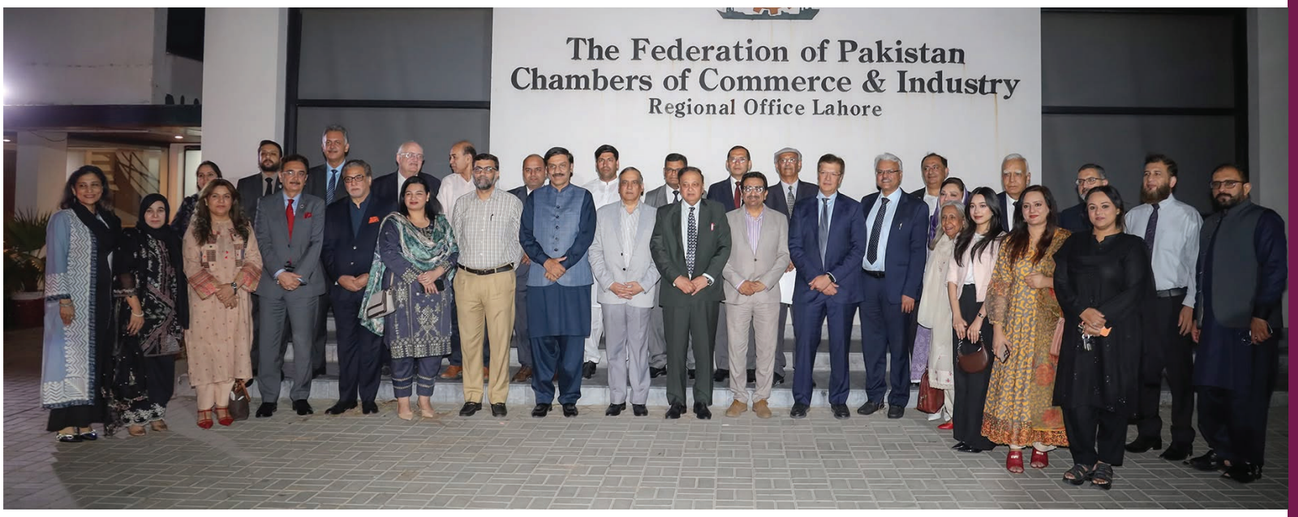

Driving National Progress Through Industry Academia Collaboration

Demonstrating its commitment to national development, policy dialogue, and industry engagement, Green International University actively participated in the FPCCI Industry–Academia Consultative Session, where Rector, Prof. Dr. Mubbsher Munawar Khan, shared strategic insights on strengthening Pakistan's knowledge economy and achieving sustainable export growth.

Addressing academic leaders, policymakers, and industry representatives, the Rector emphasized that Pakistan's aspiration to achieve a USD 100 Billion Export Target requires a broader economic vision that extends beyond conventional exports. He highlighted the immense potential of the services sector, particularly Information Technology and Healthcare, as key drivers of sustainable economic growth and international competitiveness.

Drawing attention to Pakistan's growing healthcare workforce, the Rector noted that the country produces thousands of highly qualified medical professionals every year. He identified Medical Tourism as a strategic opportunity capable of creating employment, attracting international patients, generating foreign exchange, and strengthening the national economy through world-class healthcare services.

The consultative session provided a valuable platform for strengthening collaboration between industry, academia, and policymakers, encouraging evidence-based dialogue and innovative solutions to support Pakistan's long-term economic transformation. Through its active participation in national forums, Green International University continues to contribute research-informed perspectives and visionary leadership that support sustainable development and national progress.

Contributing to National Economic Dialogue Through Academic Leadership

Reinforcing its commitment to thought leadership, public policy, and national development, Green International University actively participated in the prestigious Pre-Budget 2026: Economic Challenges & Solutions Forum, organized by the Hamdard Thinkers Forum. The University was represented by Rector, Prof. Dr. Muhammad Mubbsher Munawar Khan, whose participation reflected GIU's continued engagement in shaping meaningful dialogue on Pakistan's economic and educational future.

The forum brought together distinguished policymakers, economists, business leaders, academics, and development experts to exchange perspectives on the country's fiscal priorities, emerging economic challenges, and strategic policy directions ahead of the national budget. The discussions highlighted the critical role of higher education institutions in contributing research-informed insights and evidence-based recommendations to support sustainable economic growth.

Representing Green International University, the Rector reaffirmed the importance of strengthening collaboration between academia, industry, and government to develop innovative solutions that enhance national competitiveness, promote inclusive economic development, and prepare future generations to address complex socioeconomic challenges.

Participation in such high-level national forums reflects Green International University's vision of extending academic excellence beyond the classroom by contributing intellectual leadership to matters of national importance. Through active engagement in policy dialogue, strategic partnerships, and research-driven initiatives, GIU continues to strengthen its role as a progressive institution committed to advancing Pakistan's economic, educational, and societal development.

Forum Overview

Forum: Pre-Budget 2026 – Economic Challenges & Solutions
Organized By: Hamdard Thinkers Forum
University Representative: Prof. Dr. Muhammad Mubbsher Munawar Khan, Rector
Focus Areas: Economic Policy, Higher Education, National Development & Public Policy
Institutional Theme: Thought Leadership & Strategic National Engagement

GIU GRABS AN AWARD OF HONOR AND TWO NATIONAL PRIZES AT INNOVATIVE PAKISTAN PROJECT EXPO 2026

GIU GRABS AN AWARD OF HONOR & TWO NATIONAL PRIZES AT INNOVATIVE PAKISTAN PROJECT EXPO 2026

INNOVATION, RESEARCH AND TECHNOLOGY DRIVING NATIONAL RECOGNITION

Demonstrating its growing leadership in innovation, applied research, and technology-driven education, Green International University achieved remarkable success at the Innovative Pakistan Project Expo 2026, hosted by The University of Faisalabad. Recognized as one of Pakistan's premier national innovation exhibitions, the Expo brought together universities, industry leaders, researchers, innovators, and emerging technology experts to showcase groundbreaking ideas with real-world impact.

By the grace of Almighty Allah, Green International University was honored with the Award of Honor and secured multiple national achievement awards in recognition of its outstanding contributions to research, technological innovation, and student-led project development. The awards were presented by Prof. Dr. Aman Ullah Malik, Rector, The University of Faisalabad, acknowledging GIU's commitment to fostering a vibrant culture of creativity, entrepreneurship, and scientific excellence.

Further strengthening its national presence, Green International University proudly served as a Co-Host Partner of the Expo, reaffirming its dedication to advancing collaboration between academia, industry, and innovation ecosystems.

The University's participation reflected its strategic vision of transforming research into practical solutions that address contemporary technological and societal challenges.

Projects developed by the Department of Computer Science, in collaboration with the Green Incubation Center and under the leadership of Dr. Abdul Hannan Khan, Head of Department, received national recognition across diverse fields including Artificial Intelligence, Robotics, Smart Technologies, and Computational Innovation. The success of these projects highlights GIU's emphasis on interdisciplinary research, commercialization, and experiential learning that prepares students to become innovators, entrepreneurs, and future technology leaders.

The University extends its appreciation to Honourable Deputy Chairman, Board of Governors, Dr. Muhammad Hamza Amin, and Rector, Prof. Dr. Mubbsher Munawar Khan, whose visionary leadership and continued support have cultivated an institutional environment where innovation, research excellence, and entrepreneurial thinking continue to flourish.

This outstanding achievement reflects Green International University's strategic commitment to building an innovation-driven academic ecosystem that encourages creativity, supports research commercialization, and empowers students to develop solutions capable of creating meaningful national and global impact.

ACHIEVEMENT HIGHLIGHTS

National Recognition
- Award of Honor – Innovative Pakistan Project Expo 2026
- Co-Host Partner – Innovative Pakistan Project Expo 2026

Competition Performance
- 24 Projects Submitted
- 06 Projects Shortlisted for the National Final Stage
- 02 National Winning Projects

National Awards

2nd Position
Computer Numerical Control (CNC) Machine with AI Intervention
Prize: PKR 150,000

7th Position
GPS-Controlled Child Security AI Integrated Device
Prize: PKR 15,000

Finalist Projects
- Computer Numerical Control (CNC) Machine with AI Intervention
- GPS-Controlled Child Security AI Integrated Device
- Smart Intelligent Parking AI System
- Fire Fighting Robot
- Bio Park
- Step Volt Power Generator

Core Innovation Areas
- Artificial Intelligence (AI)

- Research Commercialization
- Entrepreneurship

CULTIVATING SCIENTIFIC EXCELLENCE THROUGH RESEARCH AND INNOVATION

Reaffirming its commitment to scientific inquiry, research excellence, and innovation-driven education, the Department of Sciences at Green International University successfully organized a Science Symposium, providing students and researchers with an engaging platform to present innovative ideas, scientific projects, and research initiatives across diverse disciplines.

Held under the leadership of Dr. Neelam Farheen, Head of the Department of Sciences, the symposium celebrated the spirit of discovery by encouraging participants to showcase their scientific creativity, analytical thinking, and research capabilities. The event promoted an environment where academic curiosity, interdisciplinary collaboration, and evidence-based learning flourished, inspiring students to explore solutions to contemporary scientific challenges.

The symposium was conducted with the continued encouragement and support of Rector, Prof. Dr. Mubbsher Munawar Khan, whose vision for strengthening research, innovation, and academic excellence continues to shape Green International University's evolving research ecosystem. His commitment to promoting scholarly engagement reflects the University's broader mission of preparing graduates capable of contributing to scientific advancement and sustainable development.

The event was further enriched by the presence of distinguished external evaluators, Prof. Dr. Muhammad Naveed from the University of Central Punjab (UCP) and Prof. Dr. Rabia Altaf from the University of Management and Technology (UMT). Their expert evaluations, constructive feedback, and academic insights provided participants with valuable perspectives, reinforcing the importance of collaboration between higher education institutions in advancing research quality and scientific excellence.

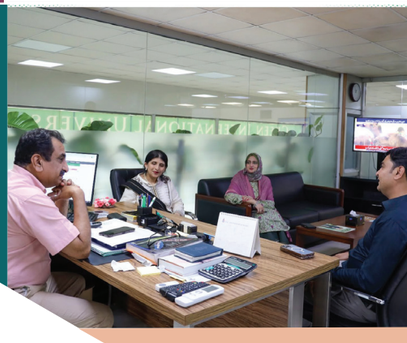

By bringing together students, faculty members, and leading academics, the Science Symposium strengthened Green International University's culture of research, innovation, and knowledge exchange. Such initiatives continue to enhance critical thinking, encourage interdisciplinary exploration, and reinforce the University's commitment to developing future scientists, researchers, and innovators equipped to address emerging national and global challenges.

PROMOTING PUBLIC HEALTH THROUGH DRUG ABUSE AWARENESS AND PREVENTIVE EDUCATION

Demonstrating its unwavering commitment to public health education, preventive healthcare, and community well-being, the Department of Pharmacy at Green International University successfully organized an Awareness Seminar on "Drug Abuse & Its Effects." The seminar was designed to educate students about one of the most critical public health issues affecting individuals, families, and communities worldwide. By creating a platform for meaningful dialogue and awareness, the event encouraged participants to better understand the causes, consequences, and preventive measures related to substance abuse.

The seminar featured Brigadier Sikandar Hayat Chaudhry as the distinguished guest speaker, whose extensive professional experience and insightful presentation provided students with a comprehensive understanding of the growing challenges posed by drug abuse. During his address, he highlighted the devastating physical, psychological, emotional, and social consequences of substance addiction, emphasizing that drug abuse not only affects individuals but also undermines families, educational institutions, and society as a whole. Drawing upon practical examples and real-life experiences, he stressed the importance of awareness, prevention, early intervention, and rehabilitation, while encouraging students to make informed decisions and become ambassadors of healthy, responsible, and drug-free lifestyles.

The interactive session also allowed students to actively engage with the speaker through thoughtful questions and discussions, creating an enriching learning environment that fostered critical thinking and greater awareness of the issue. Participants gained valuable insights into identifying risk factors, supporting individuals affected by addiction, and understanding the collective responsibility of healthcare professionals in promoting prevention and public awareness.

The event was honored by the presence of Rector, Prof. Dr. Mubbsher Munawar Khan, who commended the Department of Pharmacy for organizing a timely and impactful seminar on an issue of national and global significance. In his remarks, the Rector emphasized the vital role educational institutions play in creating awareness about public health challenges and preparing future healthcare professionals to contribute meaningfully to society. He appreciated the enthusiasm of the students and faculty for participating in initiatives that extend learning beyond the classroom.

In recognition of his valuable contribution and dedicated efforts in educating and inspiring the audience, Prof. Dr. Mubbsher Munawar Khan presented a commemorative shield to Brigadier Sikandar Hayat Chaudhry as a token of appreciation. The ceremony reflected the University's tradition of honoring distinguished professionals whose expertise enriches the academic and professional development of its students.

This awareness seminar stands as another milestone in Green International University's ongoing mission to cultivate socially responsible graduates who combine academic excellence with ethical values, professional competence, and a strong sense of community service. Through such educational initiatives, the University continues to promote preventive healthcare, informed decision-making, civic responsibility, and public awareness while empowering students to become future healthcare leaders committed to building a healthier, safer, and more informed society.

TRANSFORMING IDEAS INTO ENTERPRISE: ENTREPRENEURSHIP PROTOTYPE DISPLAY

Reflecting its commitment to entrepreneurship, innovation, and experiential learning, the Green Business School at Green International University organized the Entrepreneurship Prototype Display, providing students with a dynamic platform to transform innovative ideas into practical business solutions and entrepreneurial ventures.

The exhibition showcased a diverse range of startup concepts, business models, and prototype solutions, demonstrating students' creativity, market awareness, strategic thinking, and problem-solving capabilities. By presenting their entrepreneurial projects before academic leaders and industry professionals, participants gained valuable experience in innovation, business development, and professional presentation while strengthening their understanding of real-world enterprise challenges.

The event was graced by Rector, Prof. Dr. Mubbsher Munawar Khan, who visited the exhibition, interacted with student entrepreneurs, and evaluated the projects on display. Appreciating the originality, confidence, and practical vision demonstrated by the participants, the Rector reaffirmed the University's commitment to cultivating an entrepreneurial mindset that empowers students to become innovators, business leaders, and contributors to economic development.

The exhibition was further enriched by the presence of distinguished evaluators and industry professionals, whose expert feedback and constructive engagement provided students with valuable insights into transforming innovative concepts into sustainable and commercially viable ventures. In recognition of their valuable contribution toward strengthening entrepreneurship education, Muhammad Afzal, Executive Director Academics & Institutional Performance, presented commemorative shields to the guest evaluators as a token of appreciation.

The Entrepreneurship Prototype Display reflects Green International University's strategic vision of integrating innovation, sustainability, and industry engagement into academic learning. By promoting creativity, entrepreneurial thinking, and experiential education, the University continues to prepare graduates who possess the confidence, leadership, and practical competencies required to create opportunities, drive innovation, and contribute to Pakistan's evolving knowledge economy.

GIU RECOGNIZED IN THREE CATEGORIES AT WORLD UNIVERSITY RANKINGS FOR INNOVATION WURI 2026 LEADING INNOVATION, ENTREPRENEURSHIP AND STUDENT SUCCESS ON THE GLOBAL STAGE

Achieving a landmark milestone in its journey toward academic distinction and global recognition, Green International University has earned prestigious international recognition in the World University Rankings for Innovation (WURI) 2026—one of the world's leading benchmarks for evaluating universities based on innovation, societal impact, entrepreneurial culture, and transformative education.

The University's outstanding performance reflects its unwavering commitment to building an educational ecosystem where innovation, entrepreneurship, research, industry collaboration, and student-centered learning collectively shape future-ready graduates capable of creating meaningful impact at both national and international levels.

This remarkable achievement has been realized under the visionary leadership of Honourable Deputy Chairman, Board of Governors, Dr. Muhammad Hamza Amin, and Rector, Prof. Dr. Mubbsher Munawar Khan whose strategic direction continues to position Green International University among progressive institutions committed to redefining higher education through innovation, global engagement, and academic excellence.

The University's growing international reputation has been further strengthened through the dedicated leadership of Muhammad Afzal, Executive Director Academics & Institutional Performance, whose stewardship of the InnovateGreen initiative has fostered an institutional culture that encourages creativity, continuous improvement, interdisciplinary collaboration, and innovation across academic and administrative domains.

Green International University also acknowledges the invaluable contributions of its Deans, Directors, Heads of Departments, faculty members, researchers, professional staff, and students, whose collective dedication continues to translate the University's vision into internationally recognized achievements.

Their commitment to excellence has established GIU as an institution where innovation is embedded within teaching, research, student engagement, and community impact.

The recognition in WURI 2026 is more than an international ranking—it is a reflection of Green International University's enduring commitment to developing an ecosystem where knowledge inspires innovation, entrepreneurship creates opportunity, and education contributes to sustainable global progress. As the University continues its journey of transformation, these achievements reinforce its mission to prepare graduates who lead with purpose, embrace innovation, and shape the future through excellence and responsible leadership.

Building a Culture of Safety, Preparedness and Community Resilience

As part of its unwavering commitment to student well-being, campus safety, and holistic development, Green International University, in collaboration with Rescue 1122 and the Office of Student Affairs (OSA), successfully organized a comprehensive First Aid & Fire Safety Workshop aimed at equipping students, faculty, and staff with essential emergency response and life-saving skills. The initiative reflects the University's dedication to creating a secure learning environment where every member of the community is empowered with the knowledge and confidence to respond effectively during emergencies.

The workshop provided participants with practical, hands-on training in Cardiopulmonary Resuscitation (CPR), first aid techniques, fire prevention measures, evacuation procedures, and emergency response protocols. Experienced Rescue 1122 professionals conducted live demonstrations and interactive sessions, enabling participants to develop critical skills for responding confidently to medical emergencies, fire incidents, and other unforeseen situations. The engaging learning experience emphasized the importance of preparedness, teamwork, and timely intervention in saving lives and minimizing risks.

The event was graced by Rector, Prof. Dr. Mubbsher Munawar Khan, who commended the initiative for fostering a culture of safety, resilience, and civic responsibility across the University campus. During his interaction with the Rescue 1122 professionals, the Rector appreciated their unwavering dedication to public service, emergency management, and community awareness. In recognition of their invaluable contribution toward strengthening emergency preparedness and promoting life-saving education, he presented a commemorative shield as a token of appreciation.

The enthusiastic participation of students, faculty members, and staff reflected Green International University's belief that quality education extends beyond academic excellence to encompass practical life skills, responsible citizenship, and meaningful community engagement. By organizing initiatives

that enhance emergency preparedness and disaster awareness, the University continues to empower its community with the confidence and competence to act responsibly during times of crisis. Such efforts reaffirm Green International University's mission to develop graduates who are not only academically accomplished but also socially responsible, resilient, and prepared to make a positive impact in their communities and beyond.

GIU ORGANIZES BLOOD DONATION CAMP WITH ALEEM DAR FOUNDATION

Reaffirming its commitment to community engagement, humanitarian values, and social responsibility, Green International University, in collaboration with the Aleem Dar Foundation and the Office of Student Affairs (OSA), organized a Blood Donation Camp to encourage voluntary blood donation and promote awareness of its life-saving impact. The initiative brought together students, faculty members, and professional staff in a collective effort to support individuals in need of emergency blood transfusions. The enthusiastic participation of the University community reflected a shared commitment to compassion, civic responsibility, and service to humanity, demonstrating that education extends beyond academic achievement to meaningful contributions toward society.

The event was honored by the presence of Rector, Prof. Dr. Mubbsher Munawar Khan, who appreciated the collaborative efforts of the organizers and partner institutions in promoting a culture of volunteerism and humanitarian service. As a gesture of gratitude, the Rector presented a commemorative shield to the distinguished guests in recognition of their valuable contribution to this noble cause.

The Blood Donation Camp reflects Green International University's vision of nurturing graduates who embody empathy, ethical leadership, and active citizenship. Through initiatives that inspire volunteerism and community service, the University continues to strengthen its role as a socially responsible institution committed to improving lives and fostering a culture of care, solidarity, and collective responsibility.

Green Business School and Innovation & Incubation Hub Hold Business Idea Pitch

Strengthening its commitment to entrepreneurship, innovation, and experiential learning, Green Business School, in collaboration with the Innovation & Incubation Hub (IIH) at Green International University, successfully organized the Business Idea Pitch, providing aspiring entrepreneurs with a platform to transform innovative concepts into viable business opportunities.

The event brought together students, emerging innovators, entrepreneurs, and industry experts in an engaging environment that encouraged creative thinking, strategic planning, and collaborative learning. Participants presented their business ideas before experienced professionals, receiving valuable feedback and practical insights into innovation, market viability, and entrepreneurial development.

The event was honored by the presence of Rector, Prof. Dr. Mubbsher Munawar Khan, who interacted with distinguished guest speakers and participants during an engaging networking session. Sharing the University's vision for innovation and entrepreneurship, the Rector emphasized the importance of cultivating an academic environment where creativity, leadership, and enterprise are encouraged as essential components of higher education. His interaction reflected Green International University's collaborative culture and its commitment to connecting students with experienced professionals and industry leaders.

The event concluded with the presentation of commemorative souvenirs to the respected guests in recognition of their valuable contributions toward strengthening entrepreneurship education and inspiring the next generation of innovators.

The Business Idea Pitch exemplifies Green International University's strategic commitment to nurturing entrepreneurial talent, fostering industry-academia collaboration, and preparing graduates with the vision, confidence, and practical skills required to lead innovation and create sustainable economic value.

TEDx GIU 2026:
Unfolding the Future Through Ideas That Inspire

Celebrating the power of ideas, innovation, and transformative leadership, Green International University proudly hosted TEDx GIU under the inspiring theme "Unfolding the Future." The event brought together distinguished thought leaders, entrepreneurs, innovators, legal professionals, educators, and social changemakers who shared powerful perspectives on leadership, resilience, creativity, and the evolving challenges of the modern world.

Designed as a platform for intellectual exchange and meaningful dialogue, TEDx GIU encouraged participants to explore new possibilities, challenge conventional thinking, and embrace innovative approaches to shaping a better future. Through compelling stories, personal experiences, and visionary ideas, the speakers inspired students and faculty to think beyond boundaries and recognize the transformative impact of purpose-driven leadership.

The event was led by Rector, Prof. Dr. Mubbsher Munawar Khan, whose address reaffirmed Green International University's commitment to cultivating an academic environment where curiosity, innovation, and critical thinking flourish. Welcoming the distinguished speakers and guests, the Rector highlighted the importance of creating platforms that connect students with accomplished professionals whose experiences inspire future generations to lead with confidence, integrity, and vision.

TEDx GIU also strengthened collaboration between academia and industry by bringing together experts from diverse professional backgrounds, enabling students to engage directly with individuals who are shaping positive change within their respective fields. The exchange of ideas reflected the University's broader mission of preparing graduates who are equipped not only with academic knowledge but also with the creativity, adaptability, and leadership skills required to thrive in an increasingly interconnected world.

The event concluded with the presentation of commemorative souvenirs to the distinguished speakers in appreciation of their invaluable contributions to knowledge sharing and intellectual engagement. More than a conference, TEDx GIU represented Green International University's vision of fostering a culture where ideas inspire action, innovation drives progress, and education empowers individuals to create meaningful impact for society.

STRENGTHENING STUDENT LEADERSHIP THROUGH MEANINGFUL DIALOGUE

Reaffirming its commitment to student engagement, participatory governance, and inclusive academic leadership, Green International University organized an interactive session between Rector, Prof. Dr. Mubbsher Munawar Khan, and the University's Class Representatives (CRs) and Group Representatives (GRs).

The engagement provided an open and constructive platform for students to share their perspectives, discuss academic experiences, and contribute ideas for enhancing the University's learning environment. Through meaningful dialogue, the session strengthened the partnership between institutional leadership and the student body, reinforcing a culture built on mutual respect, collaboration, and shared responsibility.

During the interaction, the Rector encouraged student representatives to embrace their leadership roles with integrity, accountability, and a strong sense of service. He emphasized that effective student representation plays a vital role in fostering academic excellence, strengthening communication, and cultivating an environment where every student's voice contributes to the continuous growth and development of the University.

The session also reflected Green International University's belief that leadership is developed through active participation, open communication, and collaborative decision-making. By engaging directly with student representatives, the University continues to promote a student-centered culture that empowers learners to become responsible leaders, confident communicators, and active contributors to institutional progress.

This meaningful interaction reflects Green International University's enduring commitment to nurturing future leaders through dialogue, collaboration, and shared governance, ensuring that students remain active partners in shaping an inclusive, innovative, and academically enriching campus community.

STRENGTHENING RESEARCH EXCELLENCE THROUGH ACADEMIC INFRASTRUCTURE

Reinforcing its commitment to academic excellence, research advancement, and institutional development, Green International University inaugurated a newly established Conference Room, providing a modern and collaborative space designed to support academic dialogue, professional meetings, and research-driven initiatives.

The inauguration was led by Rector, Prof. Dr. Mubbsher Munawar Khan, who appreciated the dedicated efforts of Dr. Dimple Mustafa, acknowledging her leadership and commitment in making the spacious and well-equipped conference facility a valuable addition to the University's academic infrastructure.

Addressing faculty members and academic leadership during the ceremony, the Rector shared his strategic vision for strengthening medical education and health sciences research at the University. He emphasized that sustained academic excellence requires a vibrant research culture supported by quality publications, scholarly collaboration, and continuous innovation.

Presenting a forward-looking roadmap, the Rector encouraged greater emphasis on research publications, scientific symposiums, academic conferences, and the development of a dedicated research journal to enhance institutional research capacity and scholarly visibility. He also advised the Principal of AUMC to establish a Research Committee to coordinate research initiatives, promote interdisciplinary collaboration, and strengthen the University's contribution to healthcare research.

The inauguration of the new conference facility represents more than the expansion of physical infrastructure—it reflects Green International University's strategic investment in creating environments that inspire collaboration, intellectual exchange, and research excellence. By strengthening both academic facilities and research governance, the University continues to advance its mission of developing future healthcare professionals equipped to contribute to scientific discovery, evidence-based practice, and the continuous improvement of healthcare education.

GREEN BUSINESS SCHOOL SIGNS MOU WITH MARKETING ASSOCIATES & PROFESSIONALS PAKISTAN

Advancing its commitment to industry integration, experiential learning, and professional excellence, Green International University, through its Green Business School, signed a Memorandum of Understanding (MoU) with Marketing Associates & Professionals Pakistan (MAP), establishing a strategic partnership to strengthen collaboration between academia and industry.

The MoU was signed under the visionary leadership of Rector, Prof. Dr. Mubbsher Munawar Khan, whose continued emphasis on industry engagement and future-focused education is creating meaningful opportunities that bridge academic learning with professional practice. Reflecting the University's strategic direction, the partnership aims to equip students with practical competencies, industry exposure, and leadership skills required in today's competitive business environment.

Representing the industry, the collaboration was led by Mr. Tariq Asmat, Founding President & CEO, Marketing Associates & Professionals (MAP) Pakistan, whose longstanding contribution to professional development and marketing excellence has played a significant role in strengthening connections between higher education institutions and the corporate sector.

KEY AREAS OF COLLABORATION

Through this strategic partnership, students and faculty will benefit from:

- **Industry Exposure** through direct interaction with business leaders and professionals.
- **Professional Mentorship** from experienced practitioners and subject experts.
- **Internship Opportunities** to enhance workplace readiness and practical learning.
- **Capacity Building Programs** focused on leadership, communication, and professional competencies.
- **Joint Academic & Professional Activities,** including seminars, workshops, conferences, and networking events.
- **Knowledge Exchange Initiatives** designed to promote innovation, applied learning, and industry-oriented research.

This partnership reflects a shared commitment to preparing graduates with the knowledge, professional competencies, and industry exposure required to succeed in today's dynamic global economy. By bridging the gap between academia and industry, the collaboration will provide students with valuable opportunities for experiential learning, professional networking, skill development, and career advancement.

Through joint initiatives, knowledge-sharing activities, workshops, internships, industry engagement, and collaborative projects, the partnership aims to strengthen students' practical expertise while fostering innovation, leadership, and a culture of continuous learning. It also supports faculty development and encourages meaningful collaboration between academic experts and industry professionals to address emerging challenges and opportunities.

By strengthening strategic partnerships with leading professional organizations, Green International University continues to enhance graduate employability, promote research and innovation, and create pathways for lifelong professional growth. This collaboration reaffirms the University's commitment to producing future-ready graduates who possess not only academic excellence but also the practical skills, ethical values, and global perspective needed to make meaningful contributions to their professions, industries, and society.
